

# JenEhr American Bronze Heritage Turkeys

Now is the time to reserve your JenEhr Family Farm American Bronze Heritage Turkey grown on our Sun Prairie pasture. We raised 200 of these beautiful birds in a wheat/clover pasture just outside the kitchen window. The turkeys weigh between 11 and 20 pounds, are processed and frozen for your holiday eating pleasure.

There is nothing better than these heritage turkeys raised outside, roaming around on pasture, acting like real turkeys. This is how Thanksgiving is supposed to taste.

## Turkey Details
